2011 Design Information and Price List

Thank you for contacting Daily Ikon Photography and Design!

Daily Ikon Photography and Design is excited to offer complete branding and web solution for your business or non-profit. Our packages are designed to create a total web presence for you complete with photography of your space, head shots for your employees and leaders, business cards with your new logo, as well as offering options to equip you to run social media pages coordinated to match you new site.

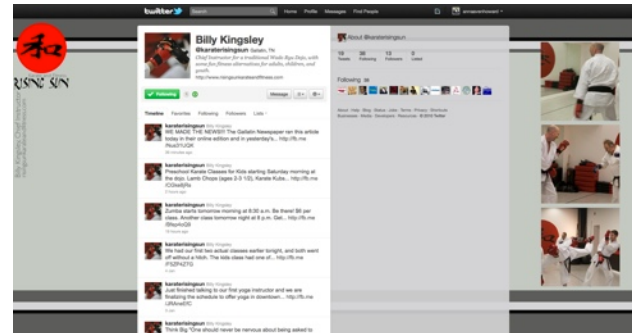

Content Management System

Using the Wordpress platform as a content management system, your new site will be easy to keep updated. All content can be accessed by a site manager, and different levels of access can be set for others to add or edit content. The design and code itself once in place, doesn't need to be accessed.

Complete Web Presence

Along with your new logo and custom look for your site, you will receive a twitter page background, and a logo or other picture sized for your facebook page.

Don't know how to use facebook or twitter for your business or non-profit? No problem! A seminar can easily be added to your web design package for you and several employees or leaders of your choice.

Content Management System

Using the Wordpress platform as a content management system, your new site will be easy to keep updated. All content can be accessed by a site manager, and different levels of access can be set for others to add or edit content. The design and code itself once in place, doesn't need to be accessed. Pages and updates can be created with little more expertise needed than sending an e-mail, it's that easy.

Non-profit Pricing

If you're looking for service for your church or non-profit, we offer a 15% discount on all services to help with your budgeting.

Social Media Training Seminar

Not sure how to best utilize twitter and facebook? Or even how best to update your

web-presence and get the word out? Book a social media training seminar for you and several employees or leaders at your non-profit and learn how to present your best side on the internet.
